## From the Management Desk

Following all the guidelines of the local authorities, our volunteers were out in the community distributing food kits to the needy families. This pandemic has made us that much more aware of the reality of hunger. An elderly women who took one of our food kits ran home to quickly cook the rice for her and her household, they immediately ate it and called us to say a big “Thank You !!” to our donor who donated to make it possible to distribute these food kits. The government is doing an excellent job in doing all that they can to fight this COVID Pandemic. In light of all this there are still abandoned widows, elderly, and orphaned families who eagerly await help. Hunger is a reality! At this juncture, we wish to reach out to the many needy whom we know are helpless. We ask you to join hands with us. Thank You so much.
